Internship

Project Manager Intern | Market Research, Business Analysis(Remote)

Jun - Aug 2026

Helioustin

- Conducted market research and company profiling to support SaaS business development initiatives.
- Performed stakeholder mapping and industry analysis to identify potential business opportunities.
- Prepared Daily Progress Reports (DPRs) and maintained research documentation.
- Collected, organized, and managed lead information and company databases.
- Collaborated with team members to support research activities and project execution.

Projects

MedicVault | Core Java, Collections Framework, File Handling, OOP

April - May 2026

- Developed a healthcare record management system using Core Java and Object-Oriented Programming concepts.
- Implemented modules for patient records, medicine management, prescription tracking, and user authentication.
- Used Java Collections and File Handling to store and manage application data efficiently.
- Gained hands-on experience in Core Java, Object-Oriented Programming, Java Collections Framework, and File Handling by developing a healthcare management system.
- **Repository Link:** <https://github.com/AkanchaRani/MedicVault>

DetectYourData | PHP, MySQL, HTML, CSS, JavaScript

Jan - Mar 2026

- Designed a web-based security solution to identify and record suspicious activities.
- Integrated detection modules for SQL Injection, Cross-Site Scripting (XSS), and brute-force attempts with detailed event logging.
- Utilized PHP, MySQL, HTML, CSS, and JavaScript to implement both frontend and backend functionalities.
- Strengthened practical knowledge of web application security, vulnerability detection, and secure coding practices through real-world attack simulations.
